

SAYKAL QUALITY POLICY

Saykal Electronics develops and manufactures advanced sensing, detection, and imaging systems for strategic and scalable industries globally, with a focus on automotive applications. Saykal aligns its product development with customer requirements and strives to ensure timely product delivery. Our quality policy is centered on continual development and improvement.

Saykal is committed to quality by:

- Meeting the requirements of the management system and continuously enhancing its effectiveness to achieve customer satisfaction,
- Maintaining sectoral leadership through innovative products, solutions, and approaches,
- Addressing the needs of all customers through efforts aimed at enhancing product quality, customer satisfaction, and value generation,
- Cultivating partnerships with national and international organizations to enhance services and drive success,
- Providing ongoing training to employees aligned with the company's goals, objectives, and personal development,
- Fostering awareness of quality, environmental, and occupational safety among all employees,
- Building trust-based relationships with suppliers and customers,
- Conducting all activities in compliance with legal regulations,
- Enhancing sustainability through continuous efficiency improvements,
- Establishing Saykal as a trusted and sought-after company that consistently meets the needs and expectations of customers across all processes.
