

USB Charger Series

15-25-60W Options

Power • Efficiency • Intelligence

The Saykal USB Type-C PD Charger is an automotive-grade, high-performance charging unit that provides universal fast charging for laptops, tablets, and mobile devices. It ensures stable and noise-free operation even in demanding environments. With LED charging indication and comprehensive protection against reverse polarity, over-voltage, over-current, and thermal faults, it delivers safe and reliable charging on the road.
